# Hiding in Plain Sight

DTO (Drug Trafficking Organization) members and their associates in the United States excel at hiding in plain sight in all parts of the country, and the better educated and prepared U.S. law enforcement officers are about them, the more effective they will be at stopping their illegal activities. These photos are of the same vehicle but taken one minute apart. I had forced the vehicle following me to go ahead. The fake paper plate was intact on the left as it entered the bridge. The fake paper plate began blowing on top and revealed the actual license plate of the vehicle following me around midpoint on the bridge.

# Gang Member Suspect

~November 2, 2020. The blue vehicle Nevada license plate SUUBYD0 is a real license plate in the next image. This same vehicle, near late September 2020, was shadowing me around San Diego, California with some other vehicles.

The SUUBYD0 vehicle appeared with these two individuals in the next photos within minutes of me checking into the hotel several hundred miles away in Virginia City, Nevada. Hiding in Plain Sight.

The Asian male hiding behind the tree is part of the ransomware gang. This is north San Diego, he hid behind the tree after mouthing of shit or fuck once I spotted him. The gang suspect on the right hid behind the pole too. Same responses. The right is Virginia City, Nevada.

# **Images of the Reno, Nevada Cartel Proxy Team**

Shortly after I resigned under threat with no recourse due to corruption [\*poisoning the well\*](#), *The Bloods/Pirus and others tried to get me into custody by trying to force a felony rental vehicle recall using insiders at LAX Enterprise (Blood Territory is adjacent). Keep in mind, I picked up the vehicle in San Diego. These are images from that day of the Cartel proxies out in force again (a show of force) with no plates or hidden plates etc.*

# Reno-Tahoe Airport

My Enterprise Rental vehicle reservation to pick up another rental vehicle after I became aware of Blood attempts to have my current rental designated a stolen vehicle. They recoded the database at the LAX Enterprise (where I had never done business). LAX is Blood Territory and where they used an Enterprise employee to tamper with my account to attempt to bring their plan to fruition.

# Reno, Nevada. Suspect Blood (Look out)

# 80 Eastbound leaving Reno

**The next slide is after I left Reno, Nevada where the Bloods (a/k/a the LAX GRP) with PIRU suspect Vinnie Hill had tried to get me into custody via framing me.**

**The next night I was in Buffalo, Wyoming and the Bloods taunted me with a fake license plate that read "LAX GRP" on the vehicle shadowing me. You can make out the LAX portion of the fake plate in the next image. I have a video of the incident and many others.**

# **Intimidation = PsyOP campaign (and more)**

I tried to make an informal deal with the cartel and the partners involved. They said no, and some Bloods would go to Europe with me and they did. This is a single few images of a PsyOp campaign in Europe carried out by the Bloods and their proxies to intimidate me.

Shadow Blood Proxy in Europe to Intimidate Me. He sat facing me. The right half shows typical blood imagery.

**PsyOp = Intimidation**

# Blood Intimidation 2022

PsyOp = Intimidation

"Planet Hollywood. Bern Switzerland, Right when I stepped off the Swiss train this guy was waiting outside my train car. I was on my way to FedPol (Swiss FBI).

Hollywood is where I first encountered Blood proxies. Hollywood is also close to South Central Los Angeles and neighboring areas which are home to some of the Blood sets involved (LAX Area, Inglewood, Compton, etc).

This "Hollywood" message is simply a targeted intimidation message like in the threat note, they placed on my vehicle in San Diego warning me there was "no escape" and I could "be got anywhere."

The previous time I started to go to FedPol. The Bloods had another proxy, black, with a "Compton" shirt which is where the original Blood set was formed that proliferated across the United States. He was waiting for me when I got off the train like this guy to the right. I went to a park bench and he sat down right behind me to intimidate me. Messengers.

It is a modified PsyOp used for cartel intimidation.

## ThreatNote

See my earlier posts or website, the cartel partners they engage in various actions, to "create fear and to force obedience from the men" on their "enemies list."

"we will get to you and hurt you in one way or another. We have ways of hurting you that you know nothing of and cannot even imagine. Always remember that anyone can be got. Do not call the news agencies, the police.

**One of these ways is modified PsyOP.**

They engage in various actions, to "create fear and to force obedience from the men" on their "enemies list."

This Blood proxy sat down in front of me again on the train, right in front after leaving Bern. Shortly after "Planet Hollywood" met me when I was getting off the train going the other way. As an aside, "Obey" is a Los Angeles clothing company.

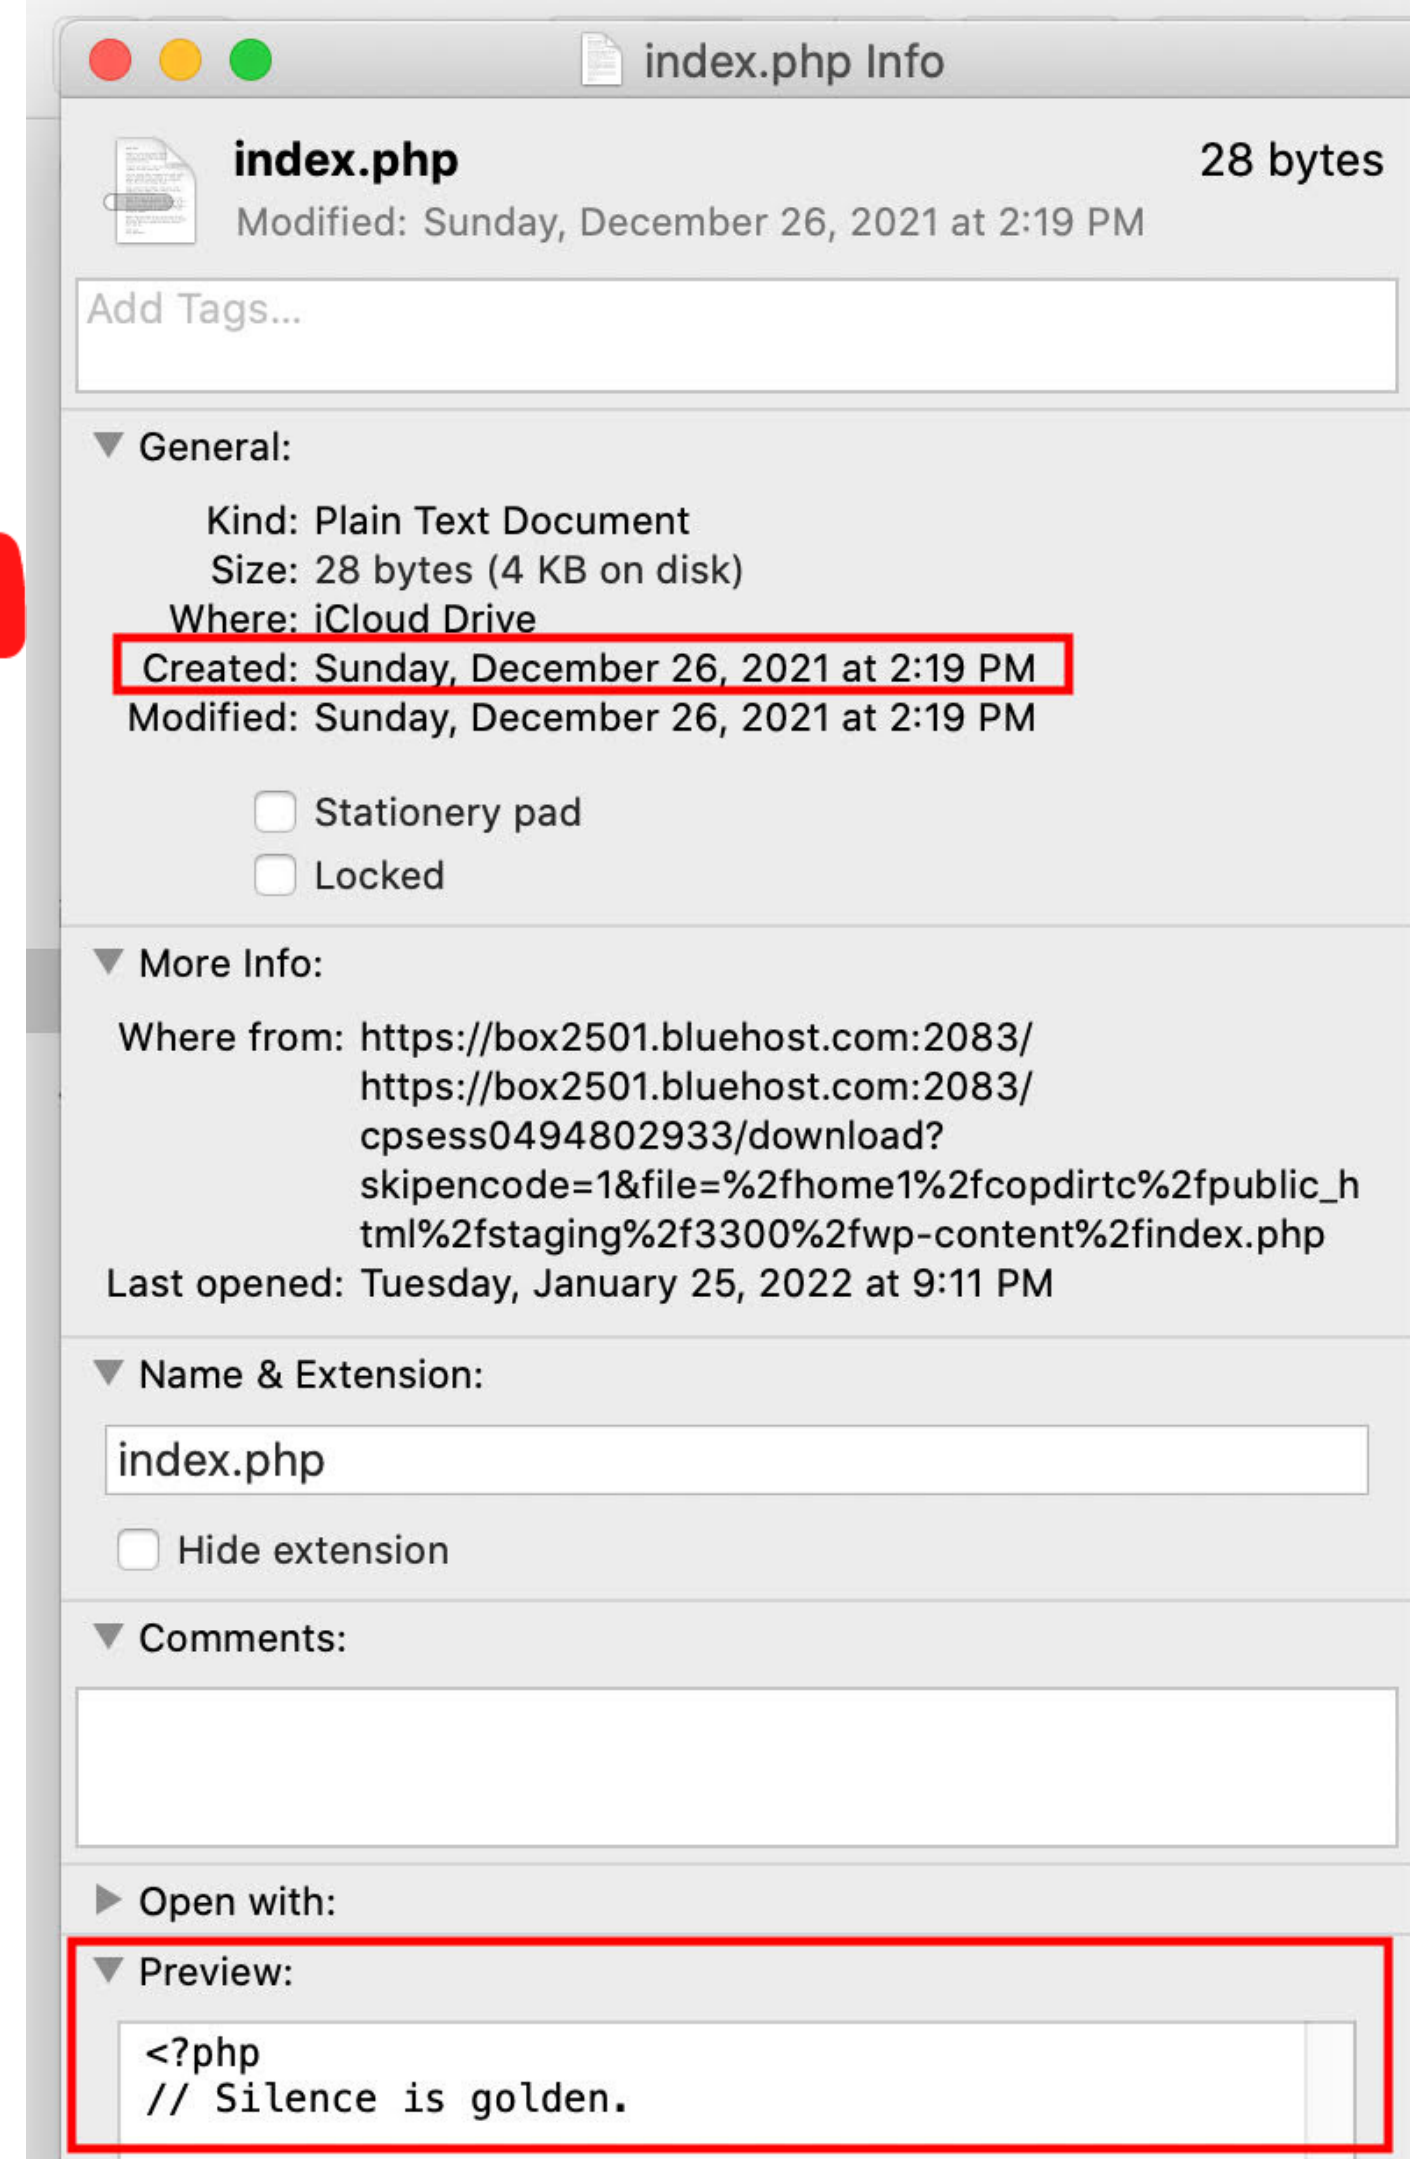

This was placed next to my bed while at the refugee detention center in Switzerland by the Bloods who paid him. Another refugee told me they were paying some of the refugees to harass me. For those of you who don't know. Compton, California is birthplace of the Blood's Street gang which has now gone transnational. It is another threat message: We know where you are. We know where you sleep. We can get you at any time just as they stated in the threat note.

# Silence is Golden

The Sinaloa Cartel hacker team placed this piece of text in my index file when I was developing, mcsinaloa.com: "silence is golden"

The screenshot shows the metadata for a file named 'index.php'. The file is 28 bytes in size and was modified on Sunday, December 26, 2021, at 2:19 PM. The 'Created' date is also Sunday, December 26, 2021, at 2:19 PM, and is highlighted with a red box. The 'More Info' section shows the file was downloaded from a Bluehost server. The 'Name & Extension' section shows the file name is 'index.php'. The 'Preview' section shows the file's content: `<?php` followed by a comment `// Silence is golden.`, which is also highlighted with a red box. A red arrow points from the text 'Silence is Golden' to the 'Created' date, and another red arrow points from the text 'silence is golden' to the 'Preview' section.
